 SUE VINTON (R)

CLERK OF DISTRICT COURT

TERRY HALPIN (R)

COUNTY COMMISSIONER

DISTRICT #2

DENIS PITMAN (R)

CONSTITUTIONAL INITIATIVE

NO. 116

CI-116 would add a new section to the Montana Constitution establishing specific rights for crime victims. The rights enumerated include the right to participate in criminal and juvenile justice proceedings, to be notified of major developments in the criminal case, to be notified of changes to the offender's custodial status, to be present at court proceedings and provide input to the prosecutor before a plea agreement is finalized, and to be heard at plea or sentencing proceedings, or any process that and to be informed of their rights. CI-116 defines specific terms and requires no further action by the Legislature for implementation. CI-116, if passed by the electorate, will become effective immediately.

INITIATIVE NO. 177

I-177 generally prohibits the use of traps and snares for animals on any public lands within Montana and establishes misdemeanor criminal penalties for violations of the trapping prohibitions. I-177 allows the Montana Department of Fish, Wildlife, and Parks to use certain traps on public land when necessary if nonlethal methods have been tried and found ineffective. I-177 allows trapping by public employees and their agents to protect public health and safety, protect livestock and property, or conduct specified scientific and wildlife management activities. I-177, if passed by the electorate, will become effective immediately.

INITIATIVE NO. 181

I-181 establishes the Montana Biomedical Research Authority to oversee and review grant applications for the purpose of promoting the development of therapies and cures for brain diseases and injuries and mental illnesses, including Alzheimer's, Parkinson's, brain cancer, dementia, traumatic brain injury and stroke. The grants, which are funded by state general obligation bonds, can be used to pay the costs of peer-reviewed biomedical research and therapy development, recruiting scientists and students and acquiring innovative technologies at Montana biomedical research organizations. I-181 provides specifics for the Montana Biomedical Research Authority's membership, powers, staffing, grant eligibility and evaluation requirements, and reporting requirements.

INITIATIVE NO. 182

I-182 renames the Montana Marijuana Act to the Montana Medical Marijuana Act and amends the Act. I-182 allows a single treating physician to certify medical marijuana for a patient diagnosed with chronic pain and includes post-traumatic stress disorder (PTSD) as a "debilitating medical condition" for which a physician may certify medical marijuana. Licensing requirements, fees and prohibitions are detailed for medical marijuana dispensaries and testing laboratories. I-182 repeals the limit of three patients for each licensed provider, and allows providers to hire employees to cultivate, dispense, and transport medical marijuana. I-182 repeals the requirement that physicians who provide certifications for 25 or more patients annually be referred to the board of medical examiners. I-182 removes the authority of law enforcement to conduct unannounced inspections of medical marijuana facilities, and requires annual inspections by the State.
